From,

Colonel [illegible]

Census Commissioner

Egypt

To,

The Honourable Secretary

to the City Council

Egypt

Census Commissioner's Office

Cairo the 7th February

1882

Sir,

I have the honor to

forward herewith, the [illegible]

Egyptian Civil Treasury, representing

contributions to the Municipality of

Alexandria on Estimated

value, the Municipal Octroi

amount for 1881. This sum

not being an appropriation from

existing surplus, but being included in

the General Municipal Budget

which amount is given by

the Government Official, to

the Municipality, I think

Expenses 1881

I The main reason for

the

the expenditure under Estimate-
ment specifying the estimate is
that we anticipate establishment
of measured mileage on the
mark of the measurement of
the channel lands pursuing under
Native Entitlement under each
Applicant on account of the
certificate over within mixed
the mark and empirical submit-
-ted of the Applicant Experimental-
-ent Engineering and area, and
thereby observing and directing
the execution of the work.

3 In figure it is necessary
for me to be supplied from
the survey Department to
specify the Field inspection
proceedings to the settlement
as mark which should stations
taking by the Claims Establish-
-ment that which in figure
they are marked to be. In
Bentley this work is done

for the purpose of ascertaining
whether the necessary number
of signatures subscribed to
the petition by a special
contingent grant will have
been obtained before any
special grant in aid of
tuition shall be made by
the Board of Education
each year hereunder, pro-
vided that the Board
of Education may, by
resolution, at any time
after the filing of petition
and the closing of the polls
on the filing of a petition
calling for a special election
hereunder, declare that no
further election shall be held
hereunder, that the petition is
insufficient, that the special
grant will not be made
and that the petition
shall be void and of no
effect. Any special grant
made hereunder may be
withdrawn by the Board
of Education at any time
after the same has been
made, but not thereafter
in its sole discretion.

Contingent

Contingent Bills for three
months for the
expenditure on account of the
Forthcoming Final Mutiny and
Expenditure on account of Field (1)
Inspection Forthcoming amounted
last year to about Rs. 3000 which will
give some idea of the probable annual cost under the
head which however will vary
in different years.

Your obedient Servant

Survey Commissioner
Mysore

No 900 of 1880

To,

The Survey Commissioner
of Mysore.

(5)

Survey Superintendent's Office
Bangalore 23rd November 1880

Sir,

I have the honor to submit the following explanation, called for in your Memo No 945 of the 19th Instant, regarding the necessity of applying for the Chief Commr's sanction to the anticipated expenditure under head of Estt in excess of the Budget Estimate for 1880-81.

2 In the year in question 15 Field Establishments were Budgeted for and duly sanctioned

sanctioned at a total for the year of Rs 90,000. The expenditure, calculated on the basis of expenditure upto date, will in probability amount, in round numbers, to Rs: 1,04,000 by the end of the year. The Deputy Accountant General declines to pass Estt. charges unless the Chief Commissioner's sanction be obtained to the anticipated excess of Rs: 14,000.

3 In explanation I beg to attach copy of a statement of estimated expenditure based on 6 months' known expenditure received from the

the Deputy Superintendent Mysore Revenue Survey. It will be observed that — under all other heads there will be a saving and that the sum of Rs: 5,000 allotted for "Further Provision &c." has not been trenched upon.

4 In Mysore, with Establishments up to present strength and with the whole of the cost of "Phut fahani" thrown upon this Department the allowance of Rs: 500 per mensem for each Establishment is in-sufficient. This point has

has never before been raised because our expenditure under head of Establishment has always been within the sanctioned total amount and no objection has been raised so long as that was the case.

I have the honor to be
Sir,
Your most obd.t Servt.

Superintendent
Mysore Rev. Survey

"Copy"
Forwarded
Supt Mysore Rev. Survey.

Signed J. Rutherfurd
Offg. Deputy Supt
Mysore Revenue

No. 865 of 1880.

To,

The Survey Settlement Commr.
of Mysore

Survey Superintendent's Office
Bangalore 13th December 80

Sir,

I have the honor to forward correspondence as per margin on the subject of anticipated excess of expenditure under head 4 in the Survey Budget for the current year.

1 Copy of Circular letter No 903 of the 8th Oct 80 to the Deputy Superintendents.

2 Copy of Circular letter No 1050 of the 23rd ultimo to the Deputy Superintendents.

3 Copy of Circular letter No 1051 of the 24th ditto to the Deputy Superintendents.

4 Abstract of Estimate No 2 of 1880-81 for Rs 3,88,000.

5 Copy of Circular letter No 1052 of the 1st instant to the Deputy Superintendents.

2 The main budget grant will not be exceeded, the saving under other heads being

being sufficient to meet the
excess under that head of Estt.
The Deputy Accountant General
however requests that the Lady
Commissioners sanction may be
obtained to the anticipated
excess, to enable him to pass
the charges on account of Establt.
3 I may state that the ex-
-cess expenditure under head
of Establishment has been caused
by an increasing Establishment,
especially that employed upon
Canal Survey, being kept up
to very high strength; I have
greatly shortening the Survey
Sitings leading to the excess for
which I now beg to solicit the
Lady Commissioners sanction.
I have the honor to be
Your most obt. Servt.

To,

The Secretary to the Town
Improvement Committee
Tigwa City

Library Superintendent's Office
Tigwa City
[illegible]

Sir,

I have the honour to submit
the report called for in Section
Commissioners' Proceedings No. 3
of the 5th February last on the
subject of the Public Lectures in
their connection with the
Institute, being done by the
Library Establishments.

2. I have put myself in
communication with the City
Commissioners of Districts from
all of whom, with the exception
of the City Commissioner of
Kalka, I have received the
replies which I beg to attach.

(5)

A perusal of the contentions raised by the petitioner with regard to the Attock Cantonment authorities are constituted as at present the field inspection cannot be done by the Cantonment authorities, unaided. The Deputy Commissioner of Rawalpindi and Katas unhesitatingly declare that the Civil inspection on "Hut Patrol" cannot be done by the Attock Cantonment. The Deputy Commissioner of the Frontier District considers that the Khattaks could be utilized for the purpose, while the Deputy Commissioner of Peshawar proposes that without the Hut Patrol as no progress in any Attock the temporary establishment should be on the basis work the permanent establishment being retained for field work, but he does not see his way to dispensing with temporary

Contd

hands. ——

4 Although the above suggestions point in the right direction they do not in my opinion go far enough. I venture to propose therefore for the consideration of Government a reorganization of Taluk Establishments which might in my opinion not only provide very efficiently for the performance of the Kurnam Pahani and thus save the sum of Rupees 3,000, annually spent on that work, but also place the Taluk Establishments on a better footing for all services at no greater cost than at present. ——

5 Taking for illustration the Taluk of Chennapatna I submit the following figures in general illustration of my proposal. The higher grades such as Amildar and Sheristedar are not touched nor yet those of Head Munshi, Treasury Munshi, Judicial Gumastha, Record Keeper, Stamp and Golla which would remain as

at

at present. —

Present Establishment. — Proposed.

No.	Designation	Pay	Total	No.	Designation	Pay	Total
1	2nd Gunner	2/9	2 10	1	2nd Gunner	2 9	2 10
4	Gunners	2 6	10 0	3	Total		12 19
2	Artificers	Nil 2/3	5 0	2	Gunners	2 6	5 0
				3	Do	1 5	4 15
				1	Do	1 2	1 2
7	Total		1 17	7	Total		1 17

Remarks

Till Gunners available for Field duty, are to have Gunners stripes, & Field Gunners wear Khaki Lanyard on that duty and would have Gunners stripes for Artificers duty.

First of all, with regard to the question of Port Patrol, now immediately in front, there can be no doubt whatever that under such a reorganization as I have proposed, the work can be done by the Patrol — Establishment, but it is very inadvisable that the Port — Patrol of more than 2 ad = = joining Forts, and Artificers of so many, should be in fact = = great at one and the same time, and in the temporary [illegible] of a few Gunners — from

(30)

from neighboring states that
in regard would completely
preclude the necessity of em-
ploying temporary hands —
while the work could be carried
on by invisible agency in-
stead of by the men of the class
from which at present the
State Militia Guard are
necessarily recruited — men
who have something to gain
and little to lose while employ-
ed on the very important
work in question. The views of
Gen. Jno. Mac Arthur on
State Militia would be found.

6 As regard the advis-
ability, on other important
general considerations, of the
Stop Movement, I do not think
much difference of opinion will
be found to exist amongst the
Returned Officers of this Province.
All Officers, without a single
exception, whom I have con-
sulted on the subject have
expressed themselves strongly

in

in favour of the proposed change. It is not easy to define precisely the function and duties of a Librarian. It cannot be limited to his duties, although they should go much further, actual only to aiding in the collection of the revenue. Formerly under the Battel system the Librarian — had a good deal of work but the Battel system now exists to a very limited degree. A Librarian should be able to — examine and check the Bursary's accounts but to my knowledge this is a duty rarely carried out by any Librarian. Work which a Gymnasium, requiring at Head Quarters and being his orders direct from the Minister, would perform in a day would often require as many days for the mail to reach the Librarian and many more days for the work to be completed. In point the amount of work got through annually by a

Gymnasium

(32)

Symantec would immediately [illegible] supervision would contract [illegible] district [illegible] with that of a Circular under the present system.

7. There is an item of income for the official use in this manner [illegible] Law in the Court Establishment. But [illegible] Establishment of a Circular and about 5 [illegible] Law in the Municipal Court, which I am now writing, June 16 Law are attached for [illegible] under the Circulars. [illegible] that only the members of Bars may be attached to Circulars might [illegible] be dispensed with under my [illegible] without any [illegible] in general efficiency.

8. I attach a statement showing Circulars without any material inaccuracy the [illegible] Circulation of the Court Establishment in the Bombay Presidency where the Court Fees in Circulars [illegible] Court Establishment [illegible]

9. The transition from the present

present to the Academic system would entail but little trouble. A good many of the Christians are fit to be spiritual pastors at once and those who are not fit are certainly unfit for the legitimate duties of Christians as at present defined, confining as they do the examination and check of the Bible accounts. In this latter work the reorganization I now propose is eminently fitted. —

I see no other way in which the Port Adams can be carried out by Talk & Establishment than that above shown. As I have already remarked there will be an annual saving of $4 3,000 and, what is of greater importance, the Port Adams will be infinitely more reliable. —

I have the honor to be

Sir

To,

The Superintendent
Revenue Survey

Sir,

With reference to your letter No. 134 dated 23rd instant, I have the honor to state that it is not clear to me as to what is meant by the expression "field instruction" in para 2 of the Chief Commissioner's Proceedings No 671-3/213 of the 19th Idem. If it means that Pahani work, I am of opinion that the present practice viz of employing extra agency for the detail-all to the Survey Establishment should continue, as the Taluq establishments in their present reduced strength are barely sufficient to cope with the ordinary Taluq work. But if it means Measurement or Test of that Pahani. I beg to observe that it is at present done by either the Amildar or Sheristadar, and their work checked by the Survey Establishment, and which check I advocate should continue.

I have the honor to be

Tumkur District
Deputy Commissioner's Office
Tumkur, 5th May 1881.

To,

The Superintendent of
Revenue Survey in Mysore.

Sir,

With reference to your letter No: 834 of 23rd February calling for my opinion on the subject of carrying out the field inspection by Taluk Establishments, I have the honor to state that the present Taluk Establishment being so limited that they can hardly get through the preparation of accounts and other office current work which nearly all their time, cannot conveniently undertake the Post-Harani and field inspection duties in addition at present. The Sheristadar, who enjoys a very unenviable position, as a duty will prove very urgent Harani for both under reference, if this state be imposed, and if they be attached to Taluk Establishment to assist work of occasional inspection in different parts of the Taluk. In the course of time, the duties of more efficient and a better class of men could be secured, and then with their assistance Post-Harani inspection could be undertaken by

the

the Public Establishment.

Harcan District,
Deputy Commissioner's Office.
Dated the 4th March 1881.

To,

The Superintendent
Upper Burma Survey.

(10 Sir,

In reply to your letter No. 7 of the 3rd instant, I have the honor to state that it is necessary to have the Khoot Pahari work done as heretofore through the Sadr agency. In other words, I think it very desirable that before the Survey settlement is introduced into a Sakin, the Sadr Burmese authorities should have an opportunity of going over the fields, and becoming acquainted with the Survey measures and the particulars of how different holdings have been cultivated together. This procedure will also bring the Ryots concerned and the Sadr authorities into closer contact, and each with the able to deal with the other satisfactorily when questions arise for decision

after the settlement is once introduced. The system will further give our Local officials an insight through Partial, into the working of the survey and settlement Department. I moved for these reasons advocate that as heretofore the Phool Pahani should be carried out under the orders of the Revenue Department.

2-. Regarding the Sufficiency of the Local establishments to carry out this work without extra temporary hands, I am of the humble opinion that it is not feasible to do so. In the last revision only the minimum strength which is necessary to carry out the work of ordinary time efficiently, has been retained and for the special work of Phool Pahani a special establishment, as is now allowed, is necessary-.

3. I moved however proposal that during the time Phool Pahani is in progress in a Local, the temporary establishment should be made to do this work, the permanent staff

being deputed for field work this year done in the Chamarajnagar Taluk of the Mysore District under the charge of the Nanjangud Sub Division. At present the men employed temporarily do the special work very perfunctorily, and when the work is finished they will disappear, and we will have no further hold upon them, whereas if the same work is done by members of the permanent Establishment, they will do the work with a stronger and more enduring sense of responsibility, and the work turned out will of course be more satisfactory.

of the Sheristars and the
savings of the fees attached
to them cannot be con-
veniently carried out
owing to the multifarious
duties attached to these
officers and the desirable-
ness of stationing
such officers at important
out-stations. It is not
to be denied that these
officers especially are ab-
present indifferently-
selected, and that a
revision of them would
as of the establishment
of Saint Pons and the
minor Patwaris lowest,
which would not

in the late revision of
the Salt Establishments
is urgently called for. The
Dy Commrs are requested
to submit their proposals
on the subject.

With regard to the
peons, some reduction in
their numbers ought to be
feasible. With regard to
Sheikdars, it will be desirable
somewhat to reduce their
numbers and to raise their
pay, which may be fixed
at 15 Rs. for two-thirds of
the number and at 20 Rs
for the remaining one-third.
The Sheikdars besides some power of management
should also be required to possess a thorough
knowledge of the Village
Accounts, and should be capable
of conducting the Civil
Pahasi, and the same
Qualifications should also
be required of the Salt
Revenue Jamadars.
The Dy Commrs should at
once set about improving
their Salt Establishments in
the above manner, eliminating

each of them as are
unfit, and should each
submit nominal lists
of those who are qualified
and who are unfit for
the work. Where vacan-
-cies are attended to,
there might be no diffi-
-culty in conducting
the Post Patwari by
means of the permanent
Patwari officials without the
necessity for any extra
temporary establishments
As remarked by Major
Grant, the establishment
of neighbouring Talukas can
be availed of to a great
in the Post Patwari work
in the Taluka in which
the same is conducted.

3. It is believed that
the superior Patwari officers,
the Kanungos and Revis-
-enue are not all
possessed of the above

qualifications. They should be called upon to master the system of Village Accounts thoroughly within a limited time, and the Dy Comrs. after examining them, should report on the qualifications of the several officers in the above respect.

Print. Secty.

To. The Dy Commr of Dindigul
The Supdt of Revenue Survey
in Mysore

Proceedings of the Dewan to His Highness the Maha Raja of Mysore, (Revenue),—dated 23rd June 1881.

From the Superintendent, Mysore Revenue Survey, To the Secretary to the Dewan to His Highness the Maha Raja of Mysore, No. 359, dated Kunigal, 28th May 1881.

I have the honor to submit the report called for in Chief Commissioner's Proceedings Nos. 6711-3—R. 1213 of the 19th February last on the subject of the "Phut Pahani" or field inspection, preparatory to settlement, being done by the Taluk establishments.

2. I have put myself in communication with the Deputy Commissioners of Districts, from all of whom, with the exception of the Deputy Commissioner of Kolar, I have received replies which I beg to attach.

3. A perusal of the correspondence now submitted will, I think, put it beyond doubt that so long as the Taluk establishments are constituted as at present the field inspection cannot be done by those establishments, unaided. The Deputy Commissioners of Bangalore and Kadur unhesitatingly declare that the field inspection or "Phut Pahani" cannot be done by the Taluk establishments. The Deputy Commissioner of the Tumkúr District considers that the Shekdars could be utilized for the purpose, while the Deputy Commissioner of Hassan proposes that whilst the Phut Pahani is in progress in any Taluk the temporary establishment should do the office work, the permanent establishment being deputed for field work; but he does not see his way to dispensing with temporary hands.

(17) 4. Although the above suggestions point in the right direction they do not in my opinion go far enough. I venture to propose therefore for the consideration of Government a re-organization of Taluk establishments which might in my opinion not only provide very efficiently for the performance of the Phut Pahani and thus save the sum of Rs. 3,000 annually spent on that work, but also place the Taluk establishments on a better footing for all purposes at no greater cost than at present.

5. Taking for illustration the Taluk of Channapatna I submit the following figures in *general* illustration of my proposal. The higher grades such as Amildar and Sheristadar are not touched on nor yet those of Head Munshi, Deputy Munshi, Judicial Gumasta, Record-keeper, Shroff and Gollas which would remain as at present.

Present Establishment.				Proposed.				
No.	Designation.	Pay.	Total.	No.	Designation.	Pay.	Total.	Remarks.
1	Head Gumasta	20	20	1	Head Gumasta	25	25	All Gumastas would be liable for field duty, but as a rule those designated Field Gumastas would be employed on that duty and would draw somewhat higher pay.
4	Gumastas	15	60	2	Field Do	23	44	
9	Shekdars	Various 20, 15, 10	130	4	Gumastas	18	72	
				3	Do	15	45	
				1	Do	12	12	
14	Total.....	...	210	11	Total.....	...	198	

First of all, with reference to the question of Phut Pahani, now immediately in point, there can be no doubt whatever that under such a re-organization as I have proposed, the work can be done by the Taluk establishment. It is very improbable that the Phut Pahani of more than two adjoining Taluks, and seldom of so many, would be in progress at one and the same time, and so the temporary loan of a few Gumastas from neighbouring Taluks not in progress would completely preclude the necessity of employing temporary hands, while the work would be carried out by responsible agency instead of by men of the class from which at present the Phut Pahani Gumastas are necessarily recruited—men who have everything to gain and little to lose while employed on the very important work in question. The sum of Rs. 3,000 now annually spent on Phut Pahani would be saved.

6. As regards the advisability, on other important general considerations, of the step I advocate, I do not think much difference of opinion will be found to exist amongst the Revenue Officers of this Province. All Amildars, without a single exception, whom I have consulted on the subject, have expressed themselves strongly in favor of the proposed change. It is not easy to define precisely the position and duties of a Shekdar. At present I believe his duties, although they should go much further, extend only to aiding in the collection of the revenue. Formerly under

the batayi system the Shekdar had a good deal of work, but the batayi system now exists to a very limited degree. A Shekdar should be able to examine and check the Shanbhog's accounts, but to my knowledge this is a duty rarely carried out by any Shekdar. Work which a Gumasta, residing at head quarters and taking his orders direct from the Amildar, would perform in 2 days would often require as many days for the order to reach the Shekdar and many more days for the work to be completed. In short the amount of work got through annually by a Gumasta under immediate supervision would contrast almost ludicrously with that of a Shekdar under the present system.

7. There is an item of saving to be effected also in the number of peons on the Taluk establishment. Out of an establishment of 2 Daffedars and about 26 peons in the Kunigal Taluk, where I am now writing, some 16 peons are detached for service under the Shekdars. About half the number of peons now attached to Shekdars might safely be dispensed with under my proposals without any loss in general efficiency.

8. I attach a statement showing I believe without any material inaccuracy the constitution of a Taluk establishment in the Bombay Presidency where the Phut Pahani is I believe always done by the Taluk establishment, unaided.

9. The transition from the present to the proposed system would entail but little trouble. A good many of the Shekdars are fit to be appointed Gumastas at once and those who are not fit are certainly unfit for the legitimate duties of a Shekdar as at present defined, comprising as they do the examination and check of the Shanbhogs' accounts. For this latter work the re-organization I now propose is eminently fitted.

10. I see no other way in which the Phut Pahani can be carried out by Taluk establishments than that above shown. As I have already remarked, there will be an annual saving of Rs. 2,000 and, what is of greater importance, the Phut Pahani will be infinitely more reliable.

BOMBAY SYSTEM.

I Class Taluk Establishment.

No.	Designation.	Pay Rs. each.	Remarks.
1	Amildar	250	
1	Sheristadar or Aval Karkún	60	
1	2nd Karkún ...	35	Generally works Nagadi.
1	Karkún	30	Mulki or Nagadi as the Amildar may direct.
2	Karkúns	25	Record-keeper or on general duty or field inspection, &c.
4	Do	20	Bárnishi Karkún or Deputy Munshi, perform whatever Amildar may direct.
3	Do	15	Shroff.
1	Karkún	12	Generally aids Bárnishi Karkún or Deputy Munshi.
14			
10	Peons including Jamadar or Daffedar		

Note.—Karkúns of less than Rs. 35 have no particular appointment assigned to them. Amildar may employ them at his own discretion.

No. 2509-17—REV. 62, DATED 23RD JUNE 1881.

ORDER THEREON.—The proposed abolition of the Shekdars and the saving of the peons attached to them cannot be conveniently carried out owing to the multifarious duties attached to these officers and the desirableness of stationing such officers at important out-stations. It is not to be denied that these officers especially are at present indifferently selected, and that a revision of them as well as of the establishment of Taluk peons and other minor establishments which was left out in the late revision of the Taluk establishments is urgently called for. The Deputy Commissioners are requested to submit their proposals on the subject.

(51)

2. With regard to the peons, some reduction in their numbers ought to be feasible. With regard to Shekdars, it will be desirable somewhat to reduce their numbers and to raise their pay which may be fixed at 15 Rs. for two-thirds of the number and at 20 Rs. for the remaining one-third. The Shekdars besides some power of management should also possess a thorough knowledge of the village accounts, and should be capable of conducting the Phut Pahani, and the same qualifications should also be required of the Taluk Revenue Gumastas. The Deputy Commissioners should at once set about improving their Taluk establishments in the above manner, eliminating such of them as are unfit, and should early submit nominal lists of those who are qualified and who are unfit for the work. If these instructions are attended to, there ought to be no difficulty in conducting the Phut Pahani by means of the permanent Taluk officials without the necessity for a temporary establishments. As remarked by Major Grant, the establishments in neighbouring Taluks can be availed of to assist in the Phut Pahani work in the Taluks in which the same is conducted.

3. It is believed that the superior Taluk officers, the Amildars and Sheristadars, are not all possessed of the above qualifications. They should be called upon to master the system of village accounts thoroughly in a limited time, and the Deputy Commissioners, after examining them, should report on the qualifications of the several officers in the above respect.

No. 436/62 Ests.

Shimoga District
Deputy Commissioner's office
Shimoga, the 2nd August 1881
Recd 18th -

To

The Secretary to the Govt
of Mysore. Revenue Department

(511)

Sir,

With reference to the Revenue Proceedings No. 2519-21/62 dated 28th June last, directing the submission of proposals for the revision of the establishment of Taluk Revenue Shirkars and other minor establishments left out in the late revision, I have the honor to state as follows:-

2. The present scale of Taluk Revenue fixed after mature consideration in 1876, vide Chief Commissioner's office docket No. 7018/1175 dated 16th October 1875, and it does not appear to me that their number can be reduced without impairing the efficiency of the service.

3. There are at present 42 Shirkars of three grades as follows:-

	Shimoga		Shimoga		Honnali		Chitradurga		Davangere		Harihar		Kadur		Tarikere		Total	
	No.	Pay	No.	Pay	No.	Pay	No.	Pay	No.	Pay	No.	Pay	No.	Pay	No.	Pay	No.	Pay
1st class at 20 Rs	2	"	1	30	"	"	3	60	3	60	3	60	"	"	3	60	13	260
2nd class at 15 Rs	2	30	3	45	2	30	2	30	2	30	5	75	5	75	2	30	23	345
3rd class at 10 Rs	3	30	"	"	2	20	1	10	1	10	"	"	1	10	"	"	8	80
	5	60	4	75	4	50	6	100	6	100	8	135	6	85	5	90	44	685

4. A statement is enclosed showing the extent and revenue of the several Talukas of this District and some other particulars which appear fit to be taken into consideration in judging of the revenue work of the Talukas and the minor inferior staff which should be allowed to the Amildars to carry on the work with desirable promptitude and correctness. And as far as I have been able to form an opinion on the subject with reference thereto and in consultation with the Amildars, I do not think I shall be justified in recommending any great reduction in the present number of Shirkdars in this District. Only three can safely be done away with namely one each in the Talukas of Shiroja, Shirdasan and Nagar. Although the revenue of Sinnali and Chamargi is not large, the number of rayts is great. In the Talukas of Kandesinga, Nagar and Sagar, although the number of rayts is small, the duty of inspecting Amildars is more difficult on account of the difficult nature of the country. Visiting out stations only 3 Shirkdars, I would propose

(56)

propose to have 14 first class and 25 second class magistrates for the District as follows:

Taluk	1st class		2nd class		Total	
	No	Pay at Rs 200	No	Pay at Rs 150	No	Pay
Shimoga	"	"	4	600	4	600
Channagiri	"	"	4	600	4	600
Honnali	"	"	4	600	4	600
Shikaripur	1	200	4	600	5	800
Sorab	3	600	3	450	6	1050
Sagar	4	800	2	300	6	1100
Nagar	3	600	2	300	5	900
Tirthalli	3	600	2	300	5	900
	14	2800	25	3750	39	6550

5. It will be seen that I propose to give all the available 1st class Taluks: class to the Inland Talukas also. This arrangement I consider is necessary to secure the satisfactory performance of duties in the Inland country.

6 If my proposal is sanctioned, I shall make the necessary redistribution of the Magazis while each Shirstadar charge should comprise according to the new arrangement. But I must at the same time beg to state, notwithstanding this specific assignment of Magazis as a general measure, that there should be

be full liberty given to the Inhabitants to make use of all their Electrical services in such manner as they may deem best and anywhere and every where in their respective Limits as occasions may arise without being in any way hampered in the exercise of their discretion in this respect by the above general distribution of Electrical charges.

I have the honor to be,
Sir,
Your most obed! Serv!

Q. No. 534

(60)

Deputy Commissioner's Office

Bangalore District

Bangalore 21st October

1881.

To

The Secretary to the

Diwan of Mysore

Sir,

In reply to the Diwan's Proceedings No. 2039-7 of the 23rd June 1881, I have the honor to state that I am of opinion that a reduction of 2 Chavidies and 4 Ploughs for Salook is quite feasible. Such reduction would necessitate a corresponding decrease in the number of Kothis for Salook, but this would not be a

a matter of difficulty.

2. The saving to be thus effected I would beg to add-vocate, should be entirely at-tached to raising the pay of Chowkidars, the minimum pay-being 20 Rs., an intermediate grade on 25 Rs., and the high-est grade on 30 Rs.

3. If present, the post of Chow-kidar is not held in the estim it should be, and in order to m, make it attractive to a proper class of educated men, it seems necessary to offer the induce-ment of good pay; seeing that an honest man is surrounded with a certain amount of discomfort,

and

(62)

and also helpful in the matter

of keeping a proper.

4. The sooner some improve-

-ment is effected in the drain-

-age there, the better it will be in the

interests of all concerned. The

proposed reduction can be effect

-ed with little or no hardship,

and there are already two

vacancies in this District, which

have not been filled up in

view to the contemplated re-

-ductions.

5. The new class of Chaukidars

should of course possess all

the qualification necessary for

helping to carry out a reliable

Plant Tahani.

6. To test the knowledge of

which Officials are contemplated in paras 2 and 3 of the proceedings under reply, the want of Coolies in Canara is badly felt, as brought to notice in this Office No 474 of 20th January 1880 and 292 of the 20th instant. And until the translation is made available to Village and Taluk Officials, the video about the examination might be held in abeyance.

53

Chittaroo, and Talook
Peons in the District

awaiting letter reflec-

No. 1/15

From A. M. Fraser, Esq.
Christiansborg, 6th December 1915.

To,
The Secretary to the
Government of Gambia.

Sir,

(68)

I have the honor to submit the following report with reference to the Native Proceedings of the 25th ult. & the 23rd June last.

2. The Auditors and Administrator were informed on receipt of Proceedings that they would be examined by me during the present Circuit and this will be done in each Court as it is completed and the result rendered as required in para 3.

3. Of the Auditors, those in Christiansborg Court have been examined by myself twice in writing, and by the Gen. Assistant Commissioner in the account in writing the other Courts will be similarly examined on proceeding on.

4. I regret to report that only

passed on Chekdar of the Tashkurgan Tahsil, as being capable of taking a survey map in his hand and understanding it so as to trace out by its aid the boundaries of a field, or make it otherwise useful. All the rest were utterly incompetent.

(10)

5. I beg to submit the following proposals as to the revision of establishment of chekdars in this District.

Name of Tahsil	Present		Proposed		Difference in the cost of pay		Remarks.
	No. of Chekdars	Their Pay	No. of Chekdars	Their pay	More	Less	
Tashkent	7	75	6	65	20	.	These figures do not include the Superintendent and Havildar who should be added to the establishment required to check the Shandgo work.
Tashkurgan	5	30	4	65	35	.	
Kahta	6	65	4	65	.	20	
Tashkurgan	4	30	6	95	.	5	
Namangan	16	100	6	95	.	5	
Andijan	6	60	6	95	35	.	In each Tahsil one is proposed on Rs 30 & the rest on Rs 15 a month.
Total	35	470	32	510	70	30	
			Net more, Rs		40		

6. The above scheme will cost a little more than the former arrangement, but it may secure efficient men. At present the chekdars live out in some village of their beat, removed from immediate oversight. Nearly all orders ~~[illegible]~~ to Shandgo pass through their hands, but most of them

do little more than amply pass the orders on and generally succeed in keeping them consecutively in train, — in fact, instead of useful assistants to the builder they are at present more of a drag on quick work than otherwise.

7. If on the other hand shipwrights were first sent for 3 months to a Dockyard to learn to do a little simple measurement work and to understand ships drawings, work, and afterwards were made to pass an examination in village accounts, they would become most valuable. They should be stationed at Deal, Ramsgate, Sheerness and be ready to start at a moments notice, on any repair work, the Builder might detail them on. At present the Shipwrights sent on orders to the Shetlands and often do not get a relief for a month. The Shetland Vessel, when she came to this District, with no fewer than 3 orders unattended to and through a bad case, this is not a solitary one.

8. The following are my proposals as to the revision of the establishment of persons.

Name of taluk	Present rate of pay								Proposed rate					
	1st Class at Rs 7		2nd Class at 6 Rs		3rd Class at 5 Rs		Total		1st Class at 7 Rs		2nd Class at 5 Rs		Total	
	No	Pay	No	Pay	No	Pay	No	Pay	No	Pay	No	Pay	No	Pay
Tanjore	-	-	9	54	15	75	24	129	5	35	[illegible]	[illegible]	[illegible]	[illegible]
Tirukkattupalli	8	56	6	48	-	-	14	104	7	49	7	42	14	[illegible]
Kumbakonam	[illegible]	77	[illegible]	55	-	-	22	132	7	49	7	55	14	[illegible]
Chidambaram	5	35	12	72	12	60	29	167	6	35	[illegible]	[illegible]	21	[illegible]
Mannargudi	-	-	7	42	15	75	22	117	7	49	4	54	11	[illegible]
Pattukkottai	10	70	10	60	-	-	20	130	7	49	7	42	14	[illegible]
Total							133	790					95	60
									Decrease				38	[illegible]

9. It will be noted that I have done away with the 3rd grade of pay, which was only 5 Rs. a miserable pittance, tending to force a man into dishonesty. By reducing the number of peons (with the smaller number of shekdars now to be employed) the increased cost of the shekdars pay is met from the saving of wages and the net result of the reorganization will be a small saving of Rs 38 a month above the Government.

I have the honor to be,

Sir,

Your most obt. servant,

[signature]

Rev. Dept

Sir,

With reference to Revenue Proceedings No 2513-67 dated 22 June '82, requesting submission of proposals for revising the Establishment of Talaris, Curnams, Shanbhogs, and the Establishments left out in the late revision, in view to the ultimate consideration of the Govt Order, I have the honor to submit the following -

2. There are certain villages in this District, with 2 or 3 hoblies I have carefully considered the

Hamlets

...ther, of believing the use rules of Kalisa, and the same Rites and Ceremonies, as those that only the small principality of Kalisa, are hereditary in the Families of their Castes.

3 As the Chiefdoms of the Kallies, are, that of Kyara, Jeara, and Nilamanally, can never be divided. The former consists of 30 villages, and lies between the Chiefs of Chittaloorg and Bheemasamudra, these two latter comprise of 24 and 13 villages respectively. 15 villages more belonging to Kyara can occasionally be transferred to Chittaloorg Chiefdom, and the remaining 5 to Bheemasamudra, to maintain the above decision can be seen when the Chiefdoms rents are settled. At which time 30 villages to Chittaloorg, and 25

until since the existing number of bodies, and the number of villages, in case of Tuvas, Abaevsk area in the Krasnoyarsk Krai, the bodies headed by the ataeks which fall to which since the number of bodies as the until that after the number, and the number of villages in each of the existing Buryatsky villages.

10. If the above, applicable be caused out a resolution of Gubernatorial until have seen by elected, pursuant to the Act - on the day of the of Khoistoks in the not fewer to not by that upon the Regulations and allowing the Gubernatorial the inaugural, of executive of the Presidium every body, their plus until in Engels city, the until having an initial extension to for - mal assent of Tuvan of Republic.

11. Until agreed to Laws

Pono

Taking Texas, I consider that in having in the experience of the south of a thing, and the multiplication and wealth and Americans that it receives, and the education of persons which it affords to children, the most important of the Americans can more be reduced the number of Slave Texas. Then are the Comanches, which the Americans employ to pick their most of their beef and who are the most useful to them, at the time of scarcity and famine. I do not consider that the present number of Texas in a thing, in any way large, but in the contrary, it is exceedingly unfortunate for the short.

12. The only means which I must take, which seems to be their cattle, in the Settlement

I the Undersigned Surveyor, Do
hereby certify that I have
already been Authorized by me
in this office Letter No 345 of
9th July 1887 a copy of which is
hereunto annexed, for Leading
References.

13. A Memorial List of
Fifty Freeholders, and Inhabitants,
Owning their Houses, or
Tenancies in the Town Reserves
and Four Acre Lots, as
certified to by the Auditor, is
hereunto Submitted—

I have the honour to be,
Sir,
Your most Obedt Servt
C.

Thomas Ed
Deputy Surveyor

Return Commissioner's Office
Kalutara, dated 7th February/57

To
The Secretary to the
Chief Commissioner of Stamps
Revenue Dept

Sir,

With reference to para. 4 of the Chief Commissioner's No. 5/7 dated 30th Oct. 56 and subsequent reminders, I have the honor to submit a statement showing the final statistics of the 1/2d and 3d blue Surcharges in this District as also the Statement which would require to be maintained therein.

2. It will be seen from the statement submitted that there are four 1/2d blue Surcharges five 2½d blue and twelve 3d blue

Class

class in this District.

3. The 1st Class Bungalows are those at Entebbe, Kampala and Jinja and Bungalows in which establishment is also kept at Entebbe where there is an extra Bungalow. I consider that a 1st Class Bungalow should have a Cutout, a Glass a Bath, a Water main, and a Cooker. I have therefore suggested that the Establishment be kept up.

4. Of the above four Bungalows I consider that Masindi and Fort Portal Bungalows need no longer be kept as 1st Class Bungalows as the cost of keeping them as such is great, while they are less convenient, particularly the latter. I would therefore recommend them to be reduced into 2nd Class Bungalows.

5. Of the 2nd Class Bungalows I consider that the one at Kampala should for the present also be

be required to a 30 Day Examination, then the district will issue the 1st Class, 2nd Class, and Third Class Examinations. The Certificate for the Lowest Grade will expire at the same as the 1st Class Examiners. Examine the Engineer and Fireman on the Locomotive and Tender.

6. You will see from the Regulations that the Examinations and Certificates will cost a charge of $2.00 per annum.

7. The 30 Day Examinations are examined by the Local Inspectors and the Certificates are not great, while the 1st and 2nd Class Examinations which are examined at the Inspectors Offices and which are Examinations must have better Certificates and such as to meet the requirements of the Examiners, and what Class are required is to be made definite Reference to them.

8. There are 3 Classes Examinations

now

men in the District and each of them has a number employed except Publicans, on a salary ranging from £ 1 to £ 2 per annum. This sum of fifteen rupees considering the low rate prices is too little and only such men are returned to that duty, who are incapable to do all that is required. Their pay should therefore consider be raised to £ 2 per month and all such cases. Some of our newly built Mosafirkhanas have not large rooms and if better servants are not employed to look after them, they will be neglected.

I have the honour to be
Sgt Abdul Khadir
Deputy Commr

Serial No

Central Circle
Deputy Commissioner's Office
No: 1/Estt/ Dated, Gauhati the 5th June, 88.

To,

(10)

The Secretary to the Govt
of Mizoram
Revenue Department

Sir,

Adverting to the Govt. Proceedings
No. 2003-12/62 dated 23rd June 88, I am
to submit proposal for the creation of
the Circle Union Establishment such as
Peon and Chaukidar, I have the honour to
observe as follows:-

2. Formerly there were 3(3) Peon in
the Revenue and Magisterial Department
of the Circle in the Districts as per assam
=ganging Statement and they were doing
both Revenue and Police works. During
the session of 87, it was reduced to 1(1)
and in 88-89 raised again to 3(3) in number.

The

The existing staff, however, being relatively insufficient to carry on the current work, I consider that no further reduction is justifiable in the number of the teachers.

3. As regards the Kindergarten, I beg to enclose herein a statement, from which it will be observed that out of 50 Kindergartners in this District, 39 are - men - of intelligence and well qualified for conducting Pathsalas and other work, and, if not at present, soon necessary qualifications for the work, but are capable of learning in the course of time, while the remaining 11 female pupils engaged in Pathsalas and other Government work, are unfortunately deficient in this respect; although they are capable of turning out a good deal of better work such as Government collections &c., attached to Kindergarten Offices. — I submit therefore,

(103)

Surveyor, that the last mentioned Officials may be eliminated gradually by deaths or pensions etc, as they become entitled to them by service, and transferring the other to Karachi and other big important ports where vacancies occur.

4. In conclusion, I beg to state that all the Customs Subordinate Officers possess necessary qualifications, and are well up in the work of Village accounts.

I have the honour to be

Sir,

Your most obedient servant

Sd/-

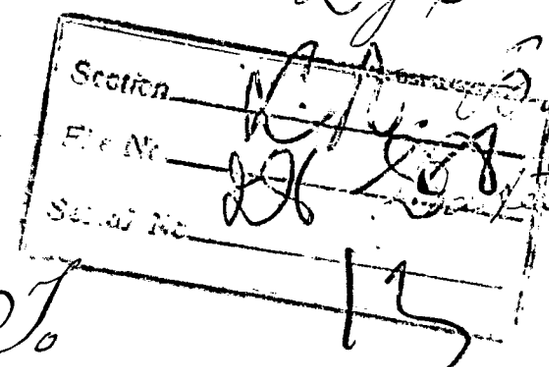
No 575.



By Commissioners Office
Bangalore Division
Dated 1st September 1885

To

The Secretary to the Govt
of Mysore.

Sir,

I have the honor to draw
your attention to my letter No. [illegible]
dated 2nd September 1881 in
which I expressed it as my opinion
that it was quite possible to reduce
the number of Sheristadars and Taluq
Peons by 1 and 4, respectively, in
each Taluk of this District.

2. The savings to the Treasury
so created, should be entirely
devoted to raising the pay of the
remaining Sheristadars. This recom-
-mendation, however, was based

on Demand proceedings of 23rd June 1881, No. 1509-17/62, wherein it was stated that "the proposed abolition of the "Sheikdoms and the severing of the "ties attached to them cannot "be conveniently carried out, owing "to the multifarious duties attached "to these offices and the dedicatedness "of sheikdoming such offices at im- "portant out-stations."

3. I think on full enquiry it will be found that the chiefs of Sheikdoms are rather anomalous from Magistrates and that they are called upon to perform, as rather efficiently perform, many duties which could be better and more appropriately performed by the village officials.

4. The chief objection, however, that I entertain to the Sheikdom

system is, that they, practically work independent of the Auditor and Treasurer too much in the matter of revenue collection - but in the business-like way of systematically checking the receipts & accounts; but by themselves collecting the money when they have a chance.

5. Sheriffs often sell deed, and other deed, right to redemption of sales, right to fishing and so on, and they often make away with the deposit Amounts, per, with consequence code, if not impunity, owing to some interference in their relations to the Auditor and especially so, as regards a proper check in the cash keeping & account department.

6. I have been recently requested with the grade of a certain Sheriff, comprising numerous districts

attend and longing over different
periods. These grants, too, were bought
to light not by the Talukdari establish-
-ment, but by a private individual,
who took the trouble to hunt up
receipts granted by the Sirishtadar
for monies received and which
had not been credited to Govern-
-ment, but criminally misappro-
-priated by him.

7. Strongly advocate the en-
-forcement of Sirishtadars and Ga-
-rfdaring, in their stead, Gujrati
Gumashtas of known integrity,
who will regularly work in the
Taluk Cutcherry and only go out
on office duty when specially de-
-puted by the Mamlatdar. These
special duty men, they will return
to the Taluk Cutcherry and make
a regular report as per their
diaries, so that they

Have

time since, including payment of
monies if received by them, or other
receipts from college officials for
such payments. The Committee
will be sent copies of all their
doings and they will be recorded
and check as to all their moneys
& other transactions.

8. If some arrangement like
the above; and which has the advan-
tage of being in force in both
the neighbouring Residencies of
Madras and Bombay; is not thought
desirable then, I would beg to recom-
mend that the saving be effected
in reducing the number of Districts
in each Circle, the saving in the
matter of a diminished number of
Revenue Board Surveyors and General Surveyors
be devoted to raising the pay of
the remaining ones, so as to improved

class of Suitors, to the Receipts introduced. For the sake of these men themselves and for the better prevention of fraud and to secure proper checks and balances System throughout the Province, I would beg to suggest that a short set of Rules be framed for their guidance, especially in the matter of money receipts and payments.

I have the honor to be
Sir,
Your most Obedient Servants.

Thirkettle
Dy Commissioner
